OBJECTIVE

Working across some Product Design areas (Interaction, Motion, UX, UI) as a Lead Designer and crafting awesome User Experiences on digital products with +8 years of experience with companies in Brazil, Netherlands and US.

With a broad range of skills, from Design to Code, specialized to fulfil the gap between Designers and Developers and creating tools to help designers to do a faster and better work.

EXPERIENCE

Lead Product Designer & UI Developer

SAI Global (Remote – United States/Netherlands)

Jan 2017 – Apr 2020

Develop interfaces and apply them to the SAI360 platform, software, modules, and third-party applications that integrate with the product.

- o Worked closely with Product Owners and developer team to design and document features for SAI360 Digital Risk & SAI360 BWISE Vendor Risk Management
- o Developed highly interactive prototypes and shipped the same UIs on the delivered product
- o Interfaced with other designers and developers in different timezones to ensure coherent UI/UX across multiple different products with different technologies
- o Applied multiple rebranding on the product
- o Developed and applied the SAI360 Risk Intelligence UI with themes
- o Created and maintained the icon library with deliveries direct to developers
- o Developed Style Guides for multiple different products and technologies

UI/UX Designer & UI Developer

Modulo Security Solutions (Brazil)

Oct 2012 – Dec 2016

Developed interfaces and applied them to the RiskManager platform.

- o Improved the UI stack with CSS preprocessors (Sass), Node.js build pipeline and style modularization
- o Write modern, maintainable and performant code for Modulo Risk Manager
- o Proposed and implemented a solution to make UIs more alike to the designed ones
- o Worked with Rio's Department of Public Security stakeholders in Integrated Command & Control Center to bring a most efficient interface for 911 operators
- o Performed the layer between design and development, talking in the way that the developer understands

Graphic Designer & UI Designer

Nuth Barra & Lagoa (Brazil)

2010 – 2011

Developed graphic elements and graphic site updates and kept the website running and updated.
