OBJECTIVE

Develop and maintain integrity on interfaces for sites, software and interactive systems as User Interface/User Experience Designer and User Interface Developer, fulfilling the gap between Designers and Developers.

EXPERIENCE

Lead User Interface/User Experience Designer & UI Developer

SAI Global (Remote – United States/Netherlands)

2017 – Today

SAI DIGITAL RISK 360

Develop interfaces and apply them in platform, software, modules and applications to third parties who have connections with the Digital Risk product.

Responsible for:

- Creating Internal UI Documentation with i18n from markdown to HTML, with automatic deploys
- Get all high-level requirements from Product Owners
- Apply SAI360 rebranding across Digital Risk product
- SAI360 Risk Intelligence UI development and application (with themes)
- Creating and maintaining the icon library with font-face package
- Digital Risk 360 platform rebrands
- Maintained layout integrity across legacy and new modules
- Designing and implementing layouts on side software projects

SAI BWISE VENDOR RISK MANAGEMENT 360

Develop interfaces with the Design Team that matches with current and new B Wise UI/UX

Responsible for:

- UI Design for VRM project
- Get all high-level requirements from Product Owner

FrontEnd UI/UX & FrontEnd Developer

Modulo Security Solutions (Partially Remote - Brazil)

2012 – 2016

MODULO RISK MANAGER

Develop interfaces and apply them in RiskManager platform.

- Third party framework (DevExpress) UI updates
- Moving to a better UI stack with CSS pre-processors (Saas), NodeJS build pipeline and a style modularization
- Part of the team who reduced bugs backlog from almost 1k items to 0

COMMAND AND CONTROL INTEGRATED SYSTEM

Develop interfaces and apply them in SICC platform.

Responsible for:

- Developing, applying and maintaining integrity of all layout for “Integrated Emergency Response and Service System” (SIADE) for Rio de Janeiro’s Department of Public Security (SESEG)
- Developing, applying and maintaining integrity of all layout of Modulo Smart Government/Command and Control Integrated System (SICC), deployed for Brazil’s Extraordinary Secretariat of Security for Major Events (SESSE) for use in 14 Command and Control Integrated Centers (CICC) in the 2014 World Cup host cities

Graphic Designer & UI Designer

Nuth Barra & Lagoa (Brazil)

2010 – 2011

Develop graphic elements, graphic site updates and keep website running and updated.
