<https://adrianocahete.dev/>

OBJECTIVE

Develop and maintain integrity on interfaces for sites, software and interactive systems as User Interface/User Experience Designer and User Interface Developer, filling the gap between Designers and Developers.

EXPERIENCE

Lead User Interface/User Experience Designer & UI Developer

SAI Global (Remote – United States/Netherlands)

2017 – Present

SAI360 DIGITAL RISK

Develop interfaces and apply them to the platform, software, modules, and third-party applications that integrate with the product.

Responsible for:

- Obtaining high-level requirements from Product Owners
- Maintaining layout integrity across new and legacy modules
- Designing and implementing layouts on software projects
- Applying SAI360 rebranding across the product
- Developing and applying the SAI360 Risk Intelligence UI with themes
- Creating and maintaining the platform icon library with a font-face package
- Creating internal UI documentation with i18n from markdown to HTML, with automatic deploys

SAI360 BWISE VENDOR RISK MANAGEMENT

Develop interfaces with the Design Team to match current and new B Wise UI/UX

Responsible for:

- Obtaining high-level requirements from Product Owners
- Designing the UI for the Vendor Risk Management solution

FrontEnd UI/UX & FrontEnd Developer

Modulo Security Solutions (Brazil)

2012 – 2016

MODULO RISK MANAGER

Developed interfaces and applied them to the RiskManager platform.

- Improved the UI stack with CSS preprocessors (Saas), Node.js build pipeline and style modularization

- Reduced the bug backlog from almost 1,000 items to 0
- Performed updates related to a third-party framework (DevExpress)

COMMAND AND CONTROL INTEGRATED SYSTEM

Developed interfaces and apply them to the SICCC platform.

Responsible for:

- Developing, applying, and maintaining the integrity of the layout of the Integrated Emergency Response and Service System for the Rio de Janeiro State Department of Public Security and of the Modulo Smart Government/Command and Control Integrated System, deployed for Brazil's Extraordinary Secretariat of Security for Major Events for use in 14 Command and Control Integrated Centers in the 2014 World Cup host cities.

Graphic Designer & UI Designer

Nuth Barra & Lagoa (Brazil)

2010 – 2011

Developed graphic elements and graphic site updates and kept the website running and updated.
